

Publish Your Zikr/Music with Fayda Digital: Your Path to Global Resonance

At Fayda Digital, we have opened up an exceptional platform for independent musicians, zaakirs, and publishers to share their spiritual and artistic Zikr/Music with the world. If you have a piece of Zikr or music that you're keen to distribute, we're excited to help your creation reach our extensive global community. Here's a detailed guide that elucidates our approach to accepting, reviewing, and publishing Zikr/Music.

Stage 1: Submission and Initial Review

The process kicks off with your submission. We invite all forms of content, whether it's ready for publishing or in an earlier stage of development. Our proficient review team closely examines each submission to assess its quality, its relevance to our audience, and its potential to enrich our platform.

While professionally produced and ready-to-publish content takes precedence, we recognize the value of potential. If your Zikr/Music is in draft form but exudes strong potential, we're committed to helping it achieve the refinement it deserves.

Stage 2: Editing and Refinement Process

If your Zikr/Music requires further refinement, our skilled team at Fayda Sounds, our music publishing arm, steps in. We are dedicated to enhancing the overall audio quality, perfecting the nuances, and ensuring your Zikr/Music offers a superior listening experience. During this phase, we'll ensure your content adheres to the highest audio standards without compromising its unique essence.

Stage 3: Publishing and Distribution

Upon meeting our quality standards, your Zikr/Music will be published on the Fayda Digital App. Our intuitive platform ensures a seamless auditory experience for our users. Your inspiring Zikr/Music will be within easy reach, ready for our users to download and immerse themselves in your spiritual and artistic expression.

Royalties and Compensation

At Fayda Digital, we believe in rewarding creators for their efforts and creativity. We offer a royalty scheme for all Zikr/Music pieces exceeding a duration of 4 minutes. The royalty rates are determined based on the number of downloads from the Fayda Digital App.

In instances where Fayda Sounds assists with production, royalties are negotiated on a case-by-case basis, ensuring fairness and transparency. Our goal is to create a mutually beneficial agreement that acknowledges your hard work and the additional production efforts provided by our team.

In conclusion, Fayda Digital is committed to helping your Zikr/Music transform from a simple audio file into a globally appreciated spiritual and musical experience. From submission, through potential editing and production, to final publication, we offer a comprehensive journey. Coupled with our royalty scheme, we ensure your creativity is acknowledged and rewarded. Take the leap today—submit your Zikr/Music to Fayda Digital and let your artistry reverberate across the globe.
