

Publish Your eBook with Fayda Digital: A Comprehensive Guide

At Fayda Digital, we offer independent publishers and writers an empowering platform to share their unique voices with a receptive audience. If you have an eBook that you'd like to publish, we're excited to help you reach readers across the globe. To ensure a smooth and efficient publishing process, we've crafted a detailed guide outlining the steps we take to review and accept eBooks.

Stage 1: Initial Submission and Review

The journey to publishing your eBook on Fayda Digital begins with your submission. We welcome all content, whether it's polished and ready for publication or a draft version with room for improvement. Our experienced review team assesses each submission to evaluate its quality, relevance, and potential appeal to our community.

It's crucial to note that we prioritize professionally finished content. However, we firmly believe in the power of untapped potential. If your work is still in draft form and exudes promise, we won't overlook it. Our team is equipped to provide support in enhancing and refining 'rough content', ensuring your work shines in the best light.

Stage 2: Editing and Copy Process

If your eBook requires further work, our team of skilled editors will step in. We focus on preserving the authenticity of your voice while improving readability, coherence, and structural flow. Our editors work diligently, ensuring your eBook meets the highest standard of publishing while maintaining your unique authorial voice.

Stage 3: Publishing and Distribution

Upon satisfactory completion of the review and editing process, your eBook will be ready for publishing on the Fayda Digital App. Our intuitive platform ensures a seamless reading experience for our global community of users, allowing them to download your eBook easily and dive into your captivating world of words.

Royalties and Earnings

One of our primary goals at Fayda Digital is to create a platform that rewards our authors for their creativity and hard work. We offer a royalty scheme for all eBooks that exceed 50 pages. Royalty rates are based on the number of downloads from the Fayda Digital App. The specific terms of these royalties are determined on a case-by-case basis, ensuring a fair and mutually beneficial agreement between Fayda Digital and our authors.

In conclusion, we at Fayda Digital are dedicated to transforming your eBook from a simple document into a globally accessible work of art. We provide a comprehensive journey, from initial submission and review to potential editing and final publication. And with our royalty scheme, we ensure that your creativity is rewarded. Don't miss this opportunity to share your work with the world—submit your eBook to Fayda Digital today.
